What our clients say about us

Matteo Mantovani CEO NCS Lab Srl

Andrea Fantozzi Chairman Moss Srl

Despite the fact that Moss S.r.l. has been exporting to the Indian market for decades and therefore has a thorough knowledge of this market, without the precious co-operation of Octagona, it would not have been possible to conclude this technology transfer agreement with the local partner, since cultural differences would have proved a nightmare to overcome.

Amedeo Maccolini CFO Coveme Spa

The role played by Octagona has been of paramount importance in achieving our goals: the start-up of the new company would have been impossible without the assistance of an experienced, helpful and flexible team, physically present on-site.

Thanks to Octagona's valuable support, we were able to establish ourselves on the US market and wade our way through this market which not only has great potential, but also is characterised by its great complexity. Managing this activity on our own would have been both time-consuming and would have required a significant amount of human resources: for this very reason, and so as not to make any mistakes, we put ourselves in the able hands of Octagona.
